Tips for Success When Talking to Your Team

- Preparation is Key: Have plan on what to do ahead of time. Work with coworkers so everyone is on the same page.
- Stay Positive: Keep the focus on what can be done to keep a safe workplace, instead of focusing on what is wrong or has gone wrong in the past.
- Share a Story, Ask for a Story: Story telling is a powerful method to convey information. Stories from employees make the topic even more relatable.
