The following is based on open-source reporting.

April 4, 2015

Summary

In packing for a trip overseas of any duration, some travelers must consider how to handle health conditions that require medication. While most over-the-counter medication can be taken across national boundaries, some cannot. Most prescription drugs, particularly habit-forming and narcotics, require additional consideration.

Commonly prescribed medications in the United States could be unlicensed or controlled substances in other countries. Failing to follow specific guidance may result in confiscation, which could impact medical treatment, or stiff penalties, including imprisonment on charges for drug trafficking, with no available recourse from the U.S. government. Countries have different rules and regulations about the types of medicine allowed to be brought into the country and the maximum amount the traveler can bring. Please be sure to check Travel.state.gov before you start your trip.

Case Studies

On February 20, 2015, a U.S. citizen was <u>arrested</u> and incarcerated in Nagoya, Japan, for shipping a three-month supply of prescription Adderall from South Korea to Japan. Adderall, an amphetamine, is illegal in Japan, as is Ritalin; both are stimulants used widely in the U.S. to counteract ADHD. The citizen also ran afoul for repackaging her prescription from the original container, in an alleged attempt to maintain privacy and avoid stigmatization from her disorder. She was 4(ac)-e51(an)8has-e51(d)] TJ ET EMC /P <</MC - and diplomatic-l-vel lobbying. For information on bringing medication into Japan, please visit the Japanese Consulate in Seattle or the U.S. Embassy in Tokyo. Many countries require a license prior to arrival.

The <u>UAE</u> has strict narcotics laws that have landed many travelers in <u>prison</u>: 38 S W R W K U H H P R Q W K V ¶ V R I D S U H V F U L S W L R Q L W H P F D Q E H E U R X J K W L Q W R W K H F R X Q W U \ E \ D W K H \ F D Q S U R G X F H D G R F W R U ¶ o\text{digition} fighthere with the latest of the late

Having as little as three grams of <u>morphine</u> in Singapore is sufficient for a death sentence. Similarly, drug offense convictions result in the death penalty in <u>Turkey</u>, <u>Egypt</u>, <u>Malaysia</u>, <u>Indonesia</u>, and <u>Thailand</u>. Malaysia, Singapore, Iran, and Saudi Arabia can impose judicially
